For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.

(54) Title: BIOREACTOR

(57) Abstract: The present invention relates to a process for producing a bioreactor using viable immobilized biological material and the bioreactor itself. More particularly, the present invention relates to a process for producing a siliceous layer capable of biomass immobilization and selectively cutting off macromolecules having molecular weight higher than a selected threshold.
